Experience

Bricks Education Feb 2025 – Oct 2025
Co-founder & Full Stack Engineer *Bengaluru, India*

- Co-founded a self-funded EdTech startup and owned the learning platform end to end, from architecture to launch.
- Taught ∼**2,000** students across multiple schools through hands-on workshops run in batches of **10**.
- Shipped the platform to production at bricks.org.in, owning both the React frontend and Express/MongoDB backend.

Projects

NotebookLLM | **Live Demo**
Tech: React, Node.js, Express, Groq, Gemini, HuggingFace Embeddings, Qdrant

- Ingested PDF/TXT/CSV to **20** MB via **2** strategies: **1,000**/**200**-char splits and **10**-row CSV batches, as **384**-dim vectors.
- Engineered a **5**-stage pipeline decomposing to **4** sub-queries at **top-4** search each, merging **16** candidates to **6** chunks.
- Gated answers via a **2**-axis LLM-as-judge scoring **1**–**5** over **3** verdicts, regenerating anything ≤**2**, across **5** endpoints.

PRHawk | **Live Demo**
Tech: React, Node.js, Express, TypeScript, Octokit, GitHub OAuth, MongoDB, OpenAI / Groq, GSAP

- Shipped an AI GitHub App reviewer: **5** severity classes, **6** fields per finding, a **0**–**100** score, and **3** merge decisions.
- Bounded prompts at **60K** chars with **8K**-char diff caps, ±**30**-line excerpts and a **40**-rule cap, listing skipped files.
- Cut relearning per merge from **N+1** LLM runs to **1** via **24 h** source staleness, a **10-min** cooldown and shared runs.

Search Typeahead
Tech: TypeScript, Node.js, Redis, SQLite, Docker, Apache Kafka

- Served search-as-you-type top-10 suggestions from a **591,775**-query dataset at **1.26 ms** p50 and ∼**2,897** req/s.
- Sustained a **93.8%** cache hit rate across a **3**-node Redis ring with **150** virtual nodes and **60 s** TTL invalidation.
- Cut DB writes ∼**3.6**× (**2,000** searches to **555** rows) via batched Kafka write-behind, with a **0.9**-decay trending ranker.

BRICKS Dashboard | **Live Demo**
Tech: React, Node.js, Express, MongoDB, Tailwind CSS

- Shipped a MERN learning-management platform to production at bricks.org.in with **2** role-scoped dashboards.
- Hardened access with JWT auth, token-blacklist logout, and role-based control over classes, assignments, and students.
- Drove **4** REST route groups (student, instructor, class, assignment) over Mongoose models and a reusable React UI.

Education

Scaler School of Technology Aug 2024 – Present
Undergraduate Program in Computer Science *Bengaluru, India*

- CGR: **8.24**

Birla Institute of Technology (BITS) Aug 2024 – Present
B.Sc. (Hons.) in Computer Science *India*

- CGPA: **8.68**

Technical Skills

Languages: JavaScript, TypeScript, Java, Python, Rust, SQL
Backend & Frameworks: Node.js, Express, Spring Boot, React, React Native, Redux Toolkit
AI & Data: LangChain, RAG, LLM API Integration, HuggingFace Embeddings, Prompt Engineering
Databases: MongoDB, SQLite, Redis, Qdrant
Cloud & DevOps: Docker, Vercel, Render, Railway
Core Concepts: Low-Level Design, OOP, REST APIs, Data Structures & Algorithms
Tools: Git, Playwright, Figma, Vite

Achievements

LeetCode: 500+ problems solved with a 400+ day solving streak.
